

100% retention for PES childcare vouchers

In the three years PES has been offering childcare vouchers, we are pleased to announce that we have retained all of our clients.

Here are some quotes from satisfied customers:

- 'Set up of the scheme was exceptional – good transfer and communication regarding the online vouchers and minimal work for the transfer'
- 'There at the end of the phone if any queries, the set up and the running of the scheme has been done very well'
- 'Communication to the employees has been really good'

More and more companies are seeing the benefit of offering childcare vouchers to their employees. Companies realise the importance of receiving excellent service without paying through the nose, and are changing to a more cost effective provider. One of the biggest misconceptions is that childcare vouchers are administratively heavy and costly to run. Our clients don't feel this to be the case.

What is different about the PES scheme?

- Flexible structure, allowing you to choose the set-up options you want
- Our dedicated childcare team is on hand to help every step of the way for both employer and employee
- We have kept our admin fee at a very competitive 4.5% which means companies can really take advantage of the 12% National Insurance saving
- Typically, for every 1 employee that signs up to the scheme, the company will save £242 per year. This takes into account the PES admin fee and is based on the employee taking up the full allowance of £243 per month
- Our pricing structure is not based on company size and there is no minimum take up; so even if you only have one employee then they can take advantage of the scheme

To find out why more and more companies are moving to PES childcare vouchers, contact us on **0845 450 9110** and ask for our childcare voucher team.
